

Leadership Committee Report to 2019 Synod Assembly

The committee met twice by conference telephone calls. The only business discussed and acted upon was to approve a new salary schedule for professional staff. The schedule included a 1% increase on beginning levels. Increments were left at indicated levels. It is urged that congregations continue to look at paying full social security for staff and to also consider the Gold Plan of insurance through Portico. If a congregation feels that it cannot meet the suggested recommended scheduled levels, it is urged that they work with their staff to provide equitable compensation in alternative forms.

Robert Mueller, Chair Leadership Support Committee
