

Sister Congregation Randomized List Arranged by Parishes and Congregations

This is the list of sister congregation pairings beginning now and continuing until the 2021 Synod Assembly. Parishes are treated as a unit when being paired. These pairings are completely random. The pairings were generated by the randomizing function in Microsoft Excel. The random function generated a random number for each parish or congregation; these random numbers were sorted lowest to highest; the pairings are based on this sorting, as you can see. As you can also see, one pairing is a "pairing" of three. May we all be blessed by the connections we make in the body of Christ.

Congregation	City	Sort Key
Zion	Mt. Carmel	0.000232586
