

## Sister Congregation Pairings 2021-2022

This list of sister congregation pairings, including parishes and specialized ministries will continue until the 2022 Synod Assembly. If you need assistance contacting your sister congregation, please contact the synod office. May we all be blessed by the connections we make in the body of Christ. Please note: Parishes are treated as a unit when being paired. These pairings are completely random and were generated by the randomizing function in Microsoft Excel. The random function generated a random number for each parish or congregation; these random numbers were sorted lowest to highest; the pairings are based on this sorting, as you can see. One pairing is a "pairing" of three.
